Lesson guidelines

New Round-Up is a fun, practical English grammar practice book that supplements your coursebook. It is perfect for extra grammar practice at the end of a lesson or as homework. New Round-Up is straightforward and easy to use. It is designed to be used with students who are studying English in different situations. Levels 1–3 are for students at the early stages of English language learning.

New Round-Up 3 English Grammar Practice is divided into twenty units, each of which focuses on one area of grammar. Within each unit there are clear and colourful grammar reference boxes and a series of straightforward, mainly write-in activities to practise the grammar. Every second or third unit there is a Progress Check, which gives students the chance to consolidate what they have learned in the previous units.

This updated version provides Progress Checks and Revisions. Use the Progress Checks to help you and your students identify the grammar points that need further explanation and practice. You can use Progress Checks in two ways:

1. As a diagnostic test to help you identify grammar points that students have difficulty with.
2. To help students identify the grammar points they need to revise and practise before they do the Revision at the end of each section.

The Revision section provides exercises which test students' progress and comprehension of grammar points and also prepares them for a test after every three units.

Your Teacher's Guide has the answer key to the exercises and a set of photocopiable tests with keys as well as quizzes which are to be taken after each unit. These tests and quizzes can save you preparation time and give your students a good idea of their progress. Students will be well prepared for these tests once they have successfully completed the appropriate revision unit.

Using New Round-Up

Choose exercises from the Grammar Practice book that practise or revise the language that you have (just) covered in your coursebook. You may want to use entire units from the Grammar

Practice book or select parts of units that interest you and that you have time for. Do not feel that you have to use all the exercises in a unit.

The exercises can be done by simply following the instructions in the Grammar Practice book, with students writing in the answers. Or, when there is time in class, you can do them orally first – with the whole class, in pairs or in groups.

Translation practice

At the end of every unit there are translation exercises (translating from Russian into English) to further consolidate learning and provide translation practice. Most translation exercises are text-based to show students how grammar works in context. These exercises will help students to realize the differences between the two languages and to understand how to express meaning in a foreign language.

Grammar boxes and tables

The grammar boxes and tables sum up the key grammar points in each unit. Students can refer to these while they are doing the practice activities and later when they are revising. Encourage them to use the boxes and to reread them often. In addition to grammar reference, they also provide information on the spelling and pronunciation areas that can easily cause students problems.

Guessing new words

Students should be encouraged to use their own language and words that they already know in English to guess the meaning of new vocabulary.

In level 3, students should be able to use context to help them guess the meanings of new words. When students come across a new word, they should try to decide what part of speech it is: a verb, a noun or an adjective, etc. They can then look at the other words in the sentence to determine what the word means.

Working in pairs and groups helps students build their vocabulary because their classmates may know words that they have not learned yet.

Encourage students to keep a record of new words as they learn them. They should write down the correct spelling of the word, the word's meaning and the word in a sentence.

Hi,

I'm in St. Petersburg. It's a very beautiful, big city, and I like it a lot. You can see ancient palaces and houses, wonderful fountains and a lot of bridges across the rivers. Our hotel is in the centre of the city. It isn't big but it's very comfortable. Unfortunately, there isn't a computer in my room so I can't play my favourite computer games. I want to visit the Hermitage very much and to take a trip along the Neva. And I'd like to taste the St. Petersburg cakes. You can buy them on Nevsky prospect. Write to me soon,

Hello, Paul.

We usually have 5 or 6 lessons a day. After school we go home, have lunch and do our homework. We always have free time after 4 or 5 pm. We often walk in the park and ride our bikes there. Sometimes we go to the internet café. We all have computers at home, but very often our parents work on the computers in the evenings. In summer we often play football outdoors and in winter we play hockey there. We like music a lot and often go to someone's place to listen to new CDs. Sometimes our parents take us to the theatre or on an excursion but we love going to the cinema.

While Dima was running and playing with the dogs Anton was sitting on a bench and preparing for the History test. He was reading a book about the Great Patriotic War. About 30 minutes later Dima came back but with only one dog! The boys looked for the other dog everywhere. Their friends helped them too but they couldn't find it anywhere. When it was getting dark the boys went home, feeling upset. When they got to their house, their dog was waiting for them by the door. The boys were so glad to see it!

Every year the central square of the town/city is decorated with a big fir tree, ice sculptures and symbols of the year. For example, last year posters of tigers were hung everywhere in the town. A big skating rink is made in the square and a lot of funny contests and games are organized. In the evenings a stage is put in the centre of the skating rink and different actors are invited. Huge sledges are built for Father Frost every year. He carries presents for small children in them. This is the children's favourite time.

One day, my friend Kate and I got bored. We decided to go jogging in the park near our house. First, we phoned our classmate Roma and invited him to join us. He promised to meet us later. We got to the park without any hurry and started jogging. Suddenly we saw that a bear was running towards us. We were really scared. We tried to stay calm but couldn't and started screaming in terror. At that moment, the bear was very close to us. It was so frightening that I even began to cry. Then I looked at Kate, but she was laughing. I couldn't understand her. She explained that the bear wasn't real, that it was someone dressed as a bear. It was April 1st! Roma wanted to play a joke and dressed up as a bear. And from a distance it looked like a real bear. Soon we were all laughing. Roma wanted to surprise us but actually frightened us a lot.
