Hi Emily,

I'm sending you some changes to the design for the Hotel Of The Future project. I'm not very good at drawing – it's definitely my <sup>1</sup> \_\_\_\_\_ (bad) skill – but hopefully we'll get a <sup>2</sup> \_\_\_\_\_ (good) mark than last term. So, the <sup>3</sup> \_\_\_\_\_ (luxurious) rooms now cost \$300 a night. Obviously they have the <sup>4</sup> \_\_\_\_\_ (good) views. I've added another spa. This one is <sup>5</sup> \_\_\_\_\_ (spectacular) the other one, but it's <sup>6</sup> \_\_\_\_\_ (cosy) with all the wood and the candles. What else? The 'sky pool' is <sup>7</sup> \_\_\_\_\_ (big), so more people can swim now. The building is just <sup>8</sup> \_\_\_\_\_ (tall) before; I haven't added any more floors. What else? Oh, I changed the material to glass. This way, I think it'll look <sup>9</sup> \_\_\_\_\_ (futuristic), perfect for next century. Let me know what you think!

Speak soon,  
Brandon
