Text 1

How to Live Your Dreams

Most of us have dreams. For example, to own a sports car or to live abroad. Some of us are happy to keep them as dreams. Some of us want to live that dream. So, how can we do that?

Many of us do not believe our dream is possible, but if you picture the dream clearly, it feels possible. So, the first thing to do is to imagine yourself driving the car or living abroad.

Next, think about what you need to do to live your dream. Perhaps it's money or a particular skill. If you write these things down, you imagine doing them. Often, we have to do a lot of things to make our dream come true. Planning these things makes it clearer.

Finally, it's important to believe in yourself. If you think you can do it, you can! You won't always be successful – things will go wrong. The important thing is not to stop. Just change your plan and start again.

Text 2

How to Live Your Dreams

Do you believe you can live your dreams? Not all of us do. But some people try hard to make their dreams real.

So that we believe our dreams can come true, we first need to imagine a picture of them. Perhaps we've written a book, or we're acting in a Hollywood film. If you imagine yourself doing it, it is easier to believe it's possible. The next thing is to tell people about your dreams. They can be excited for you, encourage you and help you succeed.

After that, you need to make a plan. If you write down all the steps, you won't feel too stressed. There are often a lot of things to do. It's a good idea to do one thing at a time.

Finally, take the first step. If you have a hard decision to make, talk to other people and think about all possible actions carefully. But remember, you must 'do', not just 'think'. If you do nothing, nothing will happen and your dream will always be just a dream.

4 Read the texts again. Are the statements True (T) or False (F)?
