TEXT 1

HOW TO LIVE YOUR DREAMS

Most of us have dreams. For example, to live abroad. Some of us are happy **to keep them as dreams but some of us want to live that dream.**

Many of us do not believe our dream is possible, but if you picture the dream **clearly, it feels possible. So, the first thing to do is to imagine it is real.**

Next, think about what you need to do to live your dream. Perhaps it's **money or a particular skill. Write your ideas down. Often, we have to** do a lot of things to make our dream come true. Planning makes it clearer.

Finally, it's important to believe in yourself. If you think you can do it, you can! Things will go wrong but the important thing is not to stop. Just **change your plan and start again.**

TEXT 2

HOW TO LIVE YOUR DREAMS

Do you believe you can live your dreams? Not all of us do.

So that we believe our dreams can come true, we first need to imagine a picture of them. If you imagine yourself doing it, it's easier to believe it's **possible. After that, tell people about your dreams. They can be excited** for you, encourage you and help you succeed.

Then make a plan. If you write down all the steps, you won't feel too stressed. There's often a lot to do. Remember to do one thing at a time.

Finally, take the first step. If you have a hard decision to make, talk to other people and think about all possible actions carefully. But remember, **you must 'do', not just 'think'. If you do nothing, nothing will happen.**

4 Read the texts again. Are the statements True (T) or False (F)?

0 Everyone believes their dreams can become real. F

1 A dream feels more possible if you think of yourself doing it. ____

2 A plan can make you feel worried. ____

3 Get advice when making decisions. ____

4 Thinking is often more important than doing. ____
