Ex 6

Example answer:

Learning something new is fun. I learnt how to ride a bike when I was six years old, and I learnt to swim when I was eight years old. They were difficult at first, but they are easy now. There are lots of things I'd like to learn. For example, I'd like to learn how to dance. My favourite dance is the tango. I'd like to learn this because I think it looks very good and I love the music they dance to. I'd also love to learn how to sing.

Ex 3

Example answer:

In this picture, I can see three people. There are two young women and a young man. I think they are students and they are working in a café outside, maybe it's at their university. There is a computer and the people are talking about something together. Maybe they are writing a report or talking about a project. The building is modern – there are some plants and lots of windows. The women have many things on their desk like pens and notebooks. I think they are enjoying their work.
