Ex 3

1 ✓ 2 ✓ 3 – 4 ✓

Ex 4

1 B 2 B 3 A 4 B

WRITING

Ex 5

1 Although 2 Despite 3 However 4 Despite

Ex 6

Example answer:

New technologies have changed many aspects of our lives, including the way we spend our free time. Almost every activity we do nowadays involves a computer or smart device. So, what are the pros and cons of using technology in our free time?

There are several advantages of using technology in our free time. For example, video games have changed how we socialise. We can now play games with friends all over the world while chatting and learning about their cultures. Research shows that some games can also help us learn new problem-solving skills.

However, there are some downsides to this type of technology. Firstly, if we spend too much time in virtual worlds, we spend less time developing relationships in the real world. Secondly, it is likely that people who spend a lot of time in front of a screen will be less healthy.

On balance, I think there are several advantages to using technology in our free time. However, we need to consider the downsides and make sure that we don't become unhealthy. We should also be careful to maintain our relationships in the real world.

188 words

Part C

SPEAKING

Ex 1

- 1 Why do you think so many people play video games?
- 2 Would you rather live in the country or the city?
- 3 How do you think your life will change in the future?
- 4 Do you think people will live on Mars in your lifetime?

Ex 2

Example answers:

- 1 (*Why do you think so many people play video games?*)
It's probably because they find them fun and relaxing.
- 2 (*Would you rather live in the country or the city?*)
I'd rather live in the city because there's much more to do there.
- 3 (*How do you think your life will change in the future?*)
I think I'll get married and hopefully I'll have some children.
- 4 (*Do you think people will live on Mars in your lifetime?*)
There's no way that will happen in my lifetime. It's too difficult and dangerous.

Ex 3

Example answer:

In this picture, I can see a group of people who are standing in a stream in the countryside. There are trees and grass and some fields in the background. At the front of the picture, there's a man who I think is a teacher and some teenagers who are probably students. The girl is holding a laptop while the teacher seems to be holding a plastic bag. They're all looking at something in the water so they might be looking for fish or maybe they're checking the quality of the water. It could be a scientific experiment or some other research that they're doing.
