- 1 I would be happy to provide any further information you require.
2 I can be available for interview at your convenience.
3 I have held several important positions.

- 4 It would be a pleasure to meet you.

Ex 6

Example answer:

Dear Federico,

I am an English teacher working part-time in a school in Cardiff. Having seen your advertisement, I am writing to apply for a position as a volunteer.

I graduated in English Language ten years ago, with a 2:1. Since then, I have had several positions as a teacher in local colleges and also with private students. Whether I am working with individuals or large groups, I make the learning experience fun and motivating.

I also have a particular interest in information technology, which I like to use in my classroom. This helps students develop both technical and language skills.

Attached is my CV which will provide you with additional information about my experience and qualifications. I would be happy to provide any further information you require. I can provide references if necessary and I can be available for interview at your convenience.

I look forward to hearing from you.

Yours sincerely,

Holly Smith

Part C

SPEAKING

Ex 1

- 1 When was the last time that something went wrong for you?
2 Would you prefer to live in a spacious home or a stylish home?
3 What is the biggest issue the world faces today?
4 If you had no access to social media, would your life be better or worse?

Ex 2

Example answer:

1 (*When was the last time that something went wrong for you?*)

It was yesterday when I had to go somewhere and the buses had stopped working. I was really late for my appointment.

2 (*Would you prefer to live in a spacious home or a stylish home?*)

I've got three children so space is definitely important. Style doesn't interest me because it changes all the time.

3 (*What is the biggest issue the world faces today?*)

A lot of people say global warming, but I think it's poverty. If you're poor, it doesn't matter what else is happening in the world. Your life is still hard.

4 *(If you had no access to social media, would your life be better or worse?)*

It would probably be better, although I don't know how we would communicate. I use it all the time to send messages.

Ex 3

Example answer:

I can see a group of people working with computers in this picture. There are three young people and two older people and they seem to be chatting and laughing. It looks like they're in an office or a school. I get the impression that the younger people are helping the older people to learn how to use the computers. Perhaps they're showing them how to use the internet or some other software and maybe they're volunteers. I think community is important to these people because it would be difficult for the older people to learn if the younger people weren't helping them.
