Unit 3 Test | A

Reading

6 Read the article and complete the sentences with 1–3 words from the article.

Five unusual foods you need to try

Have you ever heard of any of the unusual foods in the pictures in this article? Our experts have tried them so you can find out about them.

Tempeh

This delicious food comes from soya beans (a type of bean common in Asia). It comes from Indonesia. It's full of vitamins, so it's healthy. It can be fried or roasted until it's crunchy. It goes well with a spicy chilli sauce.

Natto

People in Japan have eaten natto for hundreds of years. It's very popular for breakfast. It also comes from soya beans and has a strong smell and flavour. It's very popular in Japan. People eat it with rice and spices. It is delicious and cheesy. It's also good for your body.

Durian

Some people love this fruit, but others hate it. It has a sweet flavour and the fruit is creamy. But it has a very strong smell and in South-East Asia, many hotels don't allow it. In fact, a lot of hotels and other public transport have signs with the words, 'No durian!'. However, it's very important for the local wildlife. Animals like tigers and monkeys eat it. The roasted seeds are also delicious.

Jackfruit

This sweet fruit looks like a durian, but it tastes very different. It grows all around the world, in Asia, Africa and South America. It's full of different vitamins. It's also very big and can weigh over fifty kilograms! People often use the fruit instead of meat because it goes well with salty dishes.

Kohlrabi

This vegetable is small – about the size of a golf ball, and it can be light green or purple. You can eat it raw or roasted. People often put it raw in salads, and it's crunchy and very tasty!

0 People make tempeh from soya beans.

1 Tempeh is good for you because it contains _____.

2 Natto tastes like _____.

3 It's not possible to have durian in some _____ and on transport.

4 Sometimes people use jackfruit as a substitute for _____.

5 Two ways of preparing kohlrabi are _____.

_____/10
